Barren in 1823 and 26, produced a dead foal in 1825, missed to Whalebone in 1827, 28, 29, and 30.

\* Gutty produced in 1829 a ch. f. by Greyleg, and 1832 a ch. c. by Greyleg, having missed in 1830 and 31.

The year 1825 was remarkable in the Petworth Stud for the production of dead foals, as will be observed in the account of this and many of the preceding mares. The mortality was not confined to the blood-stock, or to any particular week or month, but extended throughout the season, from February to June, and equally affected the produce of the cart mares and of the Asses.

Some of the foals were opened, and it was supposed that their livers were diseased. Fourteen mares produced dead foals, and three produced unhealthy ones, which lived but a short time, and all the Asses produced dead foals.

The mares were in different situations, and with different keeping, but in general they were pastured upon a very high dry land, with a light soil of little depth, upon a bed of stone; they went their full time, or very near it, and the foals were known to be alive within three or four days of foaling, and were fine and of full size.

She had one or two half-bred foals prior to 1809, had no produce in 1819 or 23, and died in 28, heavy in foal to Whisker—*Careless* was the first of her produce that was trained.

N. B. It will be observed that the pedigree now given of this mare differs from that which appeared in the last edition. The correction is made on the authority of Sir Charles Monck, who has furnished the Editor with an exact copy of the pedigree, which he received with the Y. Marske mare. The latter mare died in 1805, and the other produce which she had, while in Sir C. Monck's possession, were colts, and were not trained.—It is probable that the Y. Marske mare, out of Pyrrha, died in 1800, as was originally stated in the first and second editions of the 1st Vol.

\* This mare was sold to Mr Messer as got by Orville, her dam by Hambletonian—Shuttle—Overton—Beningbrough's dam, which pedigree can scarcely be correct. The only Hambletonian mare so bred is the sister to Molineux, p. 790, and she was taken to Russia by Mr Kirby, in 1818, with her grandam (the Overton mare), and her two brothers, Molineux and Hilton Miller. The Hambletonian mare was purchased by Mr Kirby of Mr Barnlett, who had her from Sir H. Vane: it is therefore improbable that she had been at all in the south of England, where Orville covered, and Mr Kirby believes that she was not put to horse till 1818, when she was covered by Thunderbolt. At p. 790 it is incorrectly stated that the Overton mare went to Ireland.

**Flying Childers.** He was sire of Gov. Ogle's Badger, a capital racer at four mile heats.

**DOVE, a beautiful grey,**

Imported by Dr Thomas Hamilton, of Prince George's county. He was got by Young Cade, his dam by Teazer, out of a Gardiner mare. Teazer, by the Bolton Starling. The year of his importation is not known, but is supposed to have been 1761 or 1762. In 1763 he started for the purse at Annapolis, which was won by Mr Galloway's Selim. His colts in general had speed, and some of them both speed and bottom. Dove was sire of Mr Macgill's Nonpareil, Primrose, Thistle, Mr Beannes's Regulus, the grandam of Mr Hall's Union, &c. Nonpareil was a capital racer, when young, but being of slender frame, he could do nothing when carrying full weight. He was the best four mile horse of Dove's get. He was never beaten until he met Lath in Philadelphia.

**FIGURE, a bay,**

About 15½ hands high, foaled in 1757; got by Grey Figure, and he by Bashaw, afterwards called Old Standard. Figure was imported by Dr Hamilton in the year 1765; his dam Mariamne, by Partner. In 1766 he won the purse at Annapolis, at four heats, beating Mr Bullen's horse Tryall, Mr Yeldell's Chester, &c. In May, 1768, Figure won at Upper Marlborough, beating Mr Galloway's Selim, Mr Thornton's Merryman, and Mr Thomas's Buckskin. He was one of the handsomest and best formed horses ever imported into this country. His colts in general had speed and bottom. He was sire of Col. Fiddeman's Grey Figure, Mr Petterson's Rochester, Mr Williamson's brown Figure, Harmony, the dam of Union, &c. all good runners.

**OTHELLO, black,**

Foaled 1743, bred by Lord Portmore. He was got by Crab, out of Miss Slamerkin, and was imported by Gov. Sharpe. It has been asked, in what year? It is not now certainly known. Gov. Sharpe commenced his administration in Maryland in the year 1753, and continued until he was superseded by Gov. Eden in 1769. He was imported probably about the year 1767 or 8. Selim was foaled in 1759, and it is believed that he was among the first of Othello's progeny. Othello was sire of True Briton. All his colts from full bred mares were good runners, and were remarkable for their bottom. In May, 1767, he stood in Beale's neck, near Annapolis; and it is supposed he died in that year, as he was not heard of afterwards.

**RANGER, b.**

Imported by Dr Thos. Hamilton, of Prince George's county, perhaps about the time of the importation of Figure. He was got by Martindale's Regulus, a son of the Godolphin Arabian. He was unsuccessful in all his trials on the turf, and was generally distanced.
